**DETAILED ACTION**

1. Claims 1-21 are pending in the present application.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 5-7, 12-14 and 19-21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Regarding claims 5-7, 12-14 and 19-21 the limitation "occasion" does not appear to be described in the disclosure. The disclosure does not appear to describe a "first occasion" or a "second occasion" as cited in the claims.

***Allowable Subject Matter***

4. Claims 1-4, 8-11 and 15-18 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter: Fujita and the prior art of record fails to teach requesting a second update

information responsive to at least the size of the first set of update information. Fujita provides for update of information with respect a size of a set of data but does not request a second set of update information based on size of first set as claimed..

### ***Response to Arguments***

6. Applicant's arguments filed May 3, 2005 have been fully considered but they are not persuasive.

Applicant argues that support for the limitation "first occasion and second occasion can be found on the following pages: page 2 lines 19-20, page 6 lines 14-16 and page 23 lines 13-15. The examiner has carefully reviewed the cited pages. The cited passage makes reference to a triggering event [page 2 lines 19-20] in which each time the computer is turned on the system selects a channel having an update in the holding area; while on page 6, describes another embodiment of the invention in which the operation system 200 is initiated by the occurrence of an event such as when the user turns on the computer system, while page 23 makes reference to updates in the holding area; but the cited passages do not describe the limitation "a first occasion" nor a "second occasion". However, Applicants arguments regarding the prior art rejection are convincing; therefore the rejection under 35 USC 102(b) has been dropped

### ***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
